This is the final version of the billing package (with my "changes accepted" to the letter/narrative), giving new file names (in accordance with the new oversight bill file naming convention) to the billing letter & narrative, the SCORPIO\$ report, and the Bill for Collection. This is the file name to use when saving the final version of the letter/narrative to the G drive subsequent to the bill package having been sent (G:\ERRDDIV-NY\Bills For Collection\MS Word version of Bills mailed).
